How did your child do on the Rhode Island Comprehensive Assessment System (RICAS) English Language Arts assessment?

The colored bar shows the score range for each achievement level and where your child's score falls, which indicates how close your child is to the next level. RICAS uses four achievement levels to describe how well students meet the expectations for their grade level.

Not Meeting Expectations
A student who performed at this level did not meet grade-level expectations in this subject.

The school, in consultation with the student's parent/guardian, should determine the coordinated academic assistance and/or additional instruction the student needs to succeed in this subject.

Partially Meeting Expectations
A student who performed at this level partially met grade-level expectations in this subject.

The school, in consultation with the student's parent/guardian, should consider whether the student needs additional academic assistance to succeed in this subject.

Meeting Expectations
A student who performed at this level met grade-level expectations and is academically on track to succeed in the current grade in this subject.

Exceeding Expectations
A student who performed at this level exceeded grade-level expectations by demonstrating mastery of the subject matter.

• The horizontal gray bar in the graphic above shows the range of likely scores your child would receive if they took the test multiple times.

Performance by Reporting Category

Each content area has reporting categories that correspond to the content domains (topics) of our state's content standards: the RI Core Standards for ELA/Literacy and RI Core Standards for Mathematics. The Reporting Category chart shows how many points your child earned for each category, the total possible points for the category, and the average points earned for your child's school, district, and the state.

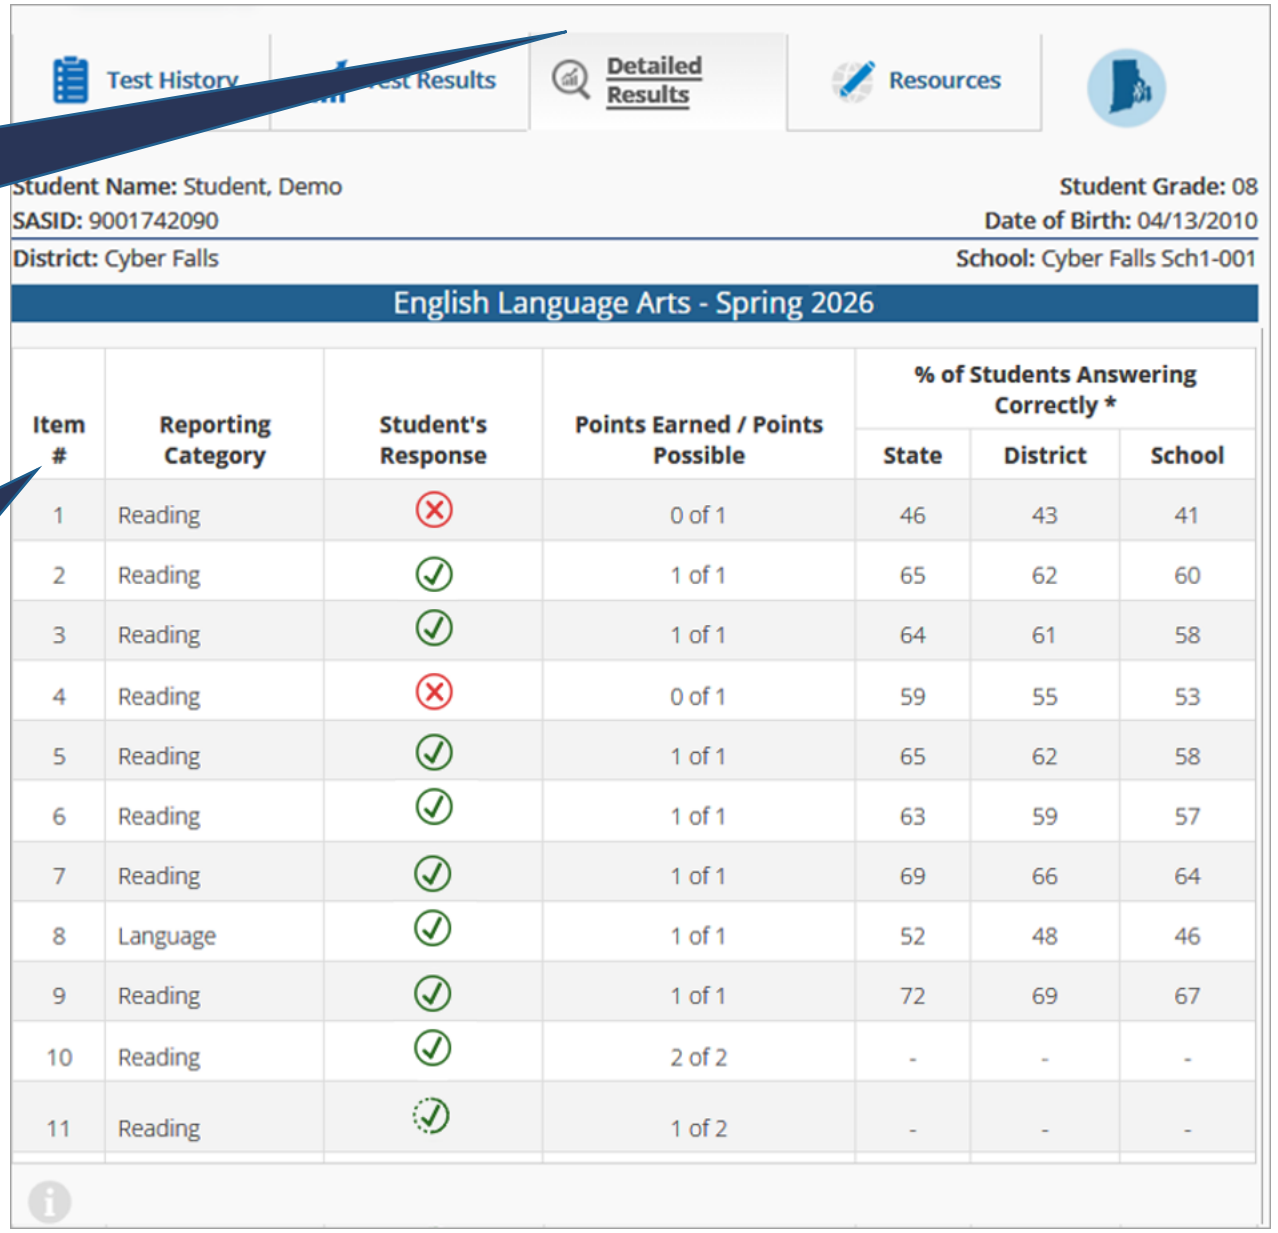

Reporting Category	Points Earned/ Points Possible	Average Points		
		School	District	State
Reading	22 / 29 76%	14.4	15.0	15.8
Language	9 / 11 82%	5.4	5.6	6.0
Writing	6 / 10 60%	2.9	2.9	3.3

-- Data is not displayed for schools and districts where the data set is fewer than 10.
